Welcome

to Jeparit & District Nursing Home

The Staff and Management of Jeparit & District Nursing Home wish to extend a warm welcome to this facility, which aims to provide a safe, caring, home like environment.

This Nursing Home has been established to meet the needs of the elderly in our community. This may be achieved through the provision of long-term specific residential accommodation, or through short periods of planned respite care, after which the person returns to the community.

Our Philosophy

Management and staff believe the Residents deserve:

- > A happy, relaxed, homelike environment, affording comfortable accommodation, warmth and a high standard of supportive care.
- > The choice of their medical practitioner or other care providers and the right to make an informed choice of care offered.
- > The right to receive respect, dignity and recognition of their individual needs. A holistic approach will be used where practicable, the staff, nurse and resident will work together to formulate an individual nursing care plan to meet these needs.
- > The provision of a well-balanced attractive diet with choices of foods and beverages to suit needs of each individual.
- > The opportunity to participate in activities appropriate to their interests and needs despite the presence of a degree of risk.
- > Encouragement to retain their dignified independence for as long as possible.
- > The best possible care and treatment (where necessary) in the least restrictive environment using all available resources.
- > The right to personal privacy.
- > Acknowledgment of and respect for their cultural and religious beliefs.
- > Encouragement to continue or begin participation in community activities.
- > The right to comment or complain about conditions in the Nursing Home.
- > The security gained from the knowledge that this is their home for the rest of their lives if they so wish.
- > The opportunity for open interaction with family, friends and the support of community and volunteer services.

Information for Residents & Visitors

About the Residence

Jeparit & District Nursing Home is a 15 bed aged care facility encompassing a mix of care levels. In October 2001 we reopened our open plan facility after a 21-month redevelopment.

The Low Care facility has 5 single rooms with ensuites and a kitchenette with a dining/living area. Three of the rooms face the Residents wandering area and two rooms face into the courtyard.

In the High Care area we have six single rooms that have shared or separate ensuites. We have two double rooms which each have their own ensuite. Located in the centre of the facility is the High Care Residents living and dining area, and Residents also use the Day Centre for meals on days when this is operational.

We have a quiet lounge area available for Residents family and friends use for special occasions/personal use.

Caring for Residents

Caring for our Residents and Resident lifestyle are the first concerns at Jeparit & District Nursing Home. The concern is demonstrated in a number of ways all of which contribute to ensuring the Residents' are safe, comfortable and as secure as possible.

Our staff are committed to providing a warm and friendly atmosphere. These are undoubtedly important factors in helping Residents to overcome the anxieties of living away from their loved ones in their own home. At Jeparit & District Nursing Home, Staff has a commitment to ensure the recognition of the uniqueness of individuals. Resident's self-esteem, privacy and freedom of choice are valued. Our philosophy is to ensure and enable all Residents to live their life with dignity and comfort whilst encouraging them to pursue their own concept of a happy, rich and fulfilling life.

We also fully encourage family support and interaction, maintaining a healthy physical and psychological wellbeing of their loved ones residing at the home.

The activities made available to Residents are based on a lifestyle approach, which aims to give a normal as possible daily routine. The interests of the Resident are investigated and provided for where possible. Jeparit & District Nursing Home employs a diversional therapist who individually assesses each Resident and together with nursing staff plans an individualised Resident activity/lifestyle program.
